National Assessment of Education Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the only national test of what students know and can do. The No Child Left Behind Act of 2001 mandated state participation in NAEP reading and mathematics assessments in grades 4 and 8 every other year so that NAEP could serve as the common measure of student achievement.

NAEP does not test each fourth or eighth grader in the state. A representative sample of schools is chosen to participate in the NAEP. No NAEP individual results are given for students or schools; only statewide results are reported. NAEP scores can be used to compare Alaska to the nation and to other states.

NAEP assessments are designed to assess NAEP standards, also known as NAEP frameworks. NAEP does not assess students on the Alaska standards (grade level expectations). Alaska Standards Based Assessments (SBAs) are designed to assess Alaska Grade Level Expectations, and SBAs are administered to all students. More information about the NAEP in Alaska can be found in <http://www.eed.state.ak.us/tls/assessment/naep.html>.

There are three achievement levels for each grade assessed by NAEP: *Basic*, *Proficient*, and *Advanced*. *Proficient* on the NAEP indicates students “have demonstrated competency over challenging subject matter.” The following definitions apply to all subjects and all grades assessed by NAEP:

Achievement-Level Policy Definitions	
<i>Basic</i>	Partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at each grade.
<i>Proficient</i>	Solid academic performance for each grade assessed. Students reaching this level have demonstrated competency over challenging subject matter, including subject-matter knowledge, application of such knowledge to real-world situations, and analytical skills appropriate to the subject matter.
<i>Advanced</i>	Superior performance.

The most recent data available for NAEP reading and mathematics is from the 2007 administration. Results from the 2009 test administration will be reported for the 2009-2010 report card.

The charts on the following pages show how Alaska students’ scores on the 2007 NAEP assessments compared to the public school students’ scores nationally.
